

Validation Report

This report was run by user **nathan.kosiba** on **2020-09-29** at **15:57:17**

Report Synopsis

This is a validation report for the CDISC Replication Pilot Project. The directory of the project is laid out as seen below. These folders are where the different files for this project are held. In addition, there are checks in place for the files used in the project to check consistency and completeness.

Directory Outline

The metadata files are located in the following folder:

/home/nathan.kosiba/r_in_pharma_workshop/metadata

The program files are located in the following folder:

/home/nathan.kosiba/r_in_pharma_workshop/programs

The output files are located in the following folder:

/home/nathan.kosiba/r_in_pharma_workshop/outputs

File Checks

Program File Check

The programs in the metadata document were checked against the programs folder, results are as follows:

Some programs present in the metadata document are not present in the programs folder. The programs listed below are not present in the programs folder.

ProgramName
t-14-3-09.R
t-14-5-01.R

Some programs present in the programs folder are not present in the metadata document. The programs listed below are not present in the metadata document.

ProgramName
funcs.R
config.R

Output File Check

The output files in the metadata document were checked against the outputs folder, results are as follows:

Some outputs present in the metadata document are not present in the outputs folder. The outputs listed below are not present in the outputs folder.

OutputName
14-1.01.rtf
14-3.03.rtf
14-3.09.rtf

All outputs present in the outputs folder are present in the metadata document.

Output Contents Checks

The text of the output files present in both the metadata document and outputs folder were checked for consistency with the source program files provided.

Sources

Some sources in the outputs do not match those in the metadata document. The outputs and sources listed below do not match the values in the metadata document.

OutputName	ProgramName
14-3.13.rtf	t-14-3-13.R
